

CivaControl™ Air System

Take Control of Your Entire Tank System During Loading and Unloading

Fail Safe Operation

Our CivaControl Air System will provide a simple Control for the entire tank system during loading and unloading. CivaControl Air Systems bring together the control of Compartment Vents, Vapor Recovery Valves, Internal Valves, Overfill Detection and Vehicle Drive Away systems.

Tank Protection

Fully-sequenced operation ensures the tank can only be loaded or unloaded when the truck is in a totally ready condition.

Purpose Built

Specifically-designed, unique-function, heavy-duty pneumatic control valves ensures reliable performance in extreme operating conditions.

- Temperature range (-40° F to 150° F).
- Robust controls are ergonomically positioned for ease of operation.
- Available for tanks with 1 to 12 compartments.

Easy to Install

All valves are conveniently pre-mounted on a stainless steel panel for easy mounting in a central location.

Versatile

CivaControl Air Systems control the full spectrum of tank truck and tank trailer functions. Whether installed on petroleum transport trailers or tank trucks equipped with Civacon Manifolds, you're always in complete control. Conveniently mounted air pressure gauge and visual indicator advise the readiness of the system.

CCP-1 used as a Load Valve to release the Guard Bar Lock over APIs. Pop-Up confirms Vapor Vents are "open."

CivaControl Ordering Information

Number of Compartments	Part Number	Panel Length 'L'
1	CCP-1	4.5" Square
2	CCP-2	12.0"
3	CCP-3	12.0"
4	CCP-4	12.0"
5	CCP-5	12.0"
6	CCP-6	13.8"
7	CCP-7	17.2"
8	CCP-8	17.2"
9+	Consult Factory	

NOTE: CCP-1 has no Pressure Gauge.
